

Where Do You Stand Connecticut?

A CALL TO ACTION FOR CONNECTICUT MEN

Over the past three years, more than 2,500 men have attended Where Do You Stand Connecticut? bystander intervention training sessions and more than 1,500 men have pledged to help prevent sexual violence in their communities. We invite men across the state to join us in celebrating the ways that men can contribute to sustaining a safer Connecticut.

Four free events will be hosted across the state for men to discuss healthy masculinity and acquire tools for preventing sexual violence in their communities.

Featured Guest: Patrick McGann, PhD

McGann is the Deputy Director of Men Can Stop Rape, an organization that mobilizes men to use their voice and influence to create cultures free from violence.

Men currently working in the field of sexual violence prevention will share their techniques that can be brought back to campuses, workplaces, and other communities.

SEPTEMBER
27
